VANSPED

LOGISTICS ... with us it's safe!

About us

Vansped Logistics is a modern full-service logistics company with a full range of services and its own fleet of 300 transport vehicles, developing high-quality transport solutions for delivering goods to Russia, as well as reliable logistics in the field of the transportation of perishable goods within Europe. Our range of logistics services includes the organization of cargo transportation to Russia, including assorted cargo by all modes of transport. A particular specialization of the company is provision of multi-modal transportation services by means of RO/RO transportation by ferry from Germany to St. Petersburg port for the project and oversize cargos, as well as Ro-Ro units.

Our main asset is our clients. We pay close attention and direct our energy to everyone. Our goal is to provide each client with sustainable benefits in their value chain due to our professionalism and the top-level quality of service.

Our goal

Our goal is to help each client to reap long-term benefits in the form of professionalism and quality by identifying our clients' desires and concerns. The activities of our company are certified in accordance with the regulations and standards applicable in Germany and the Russian Federation.

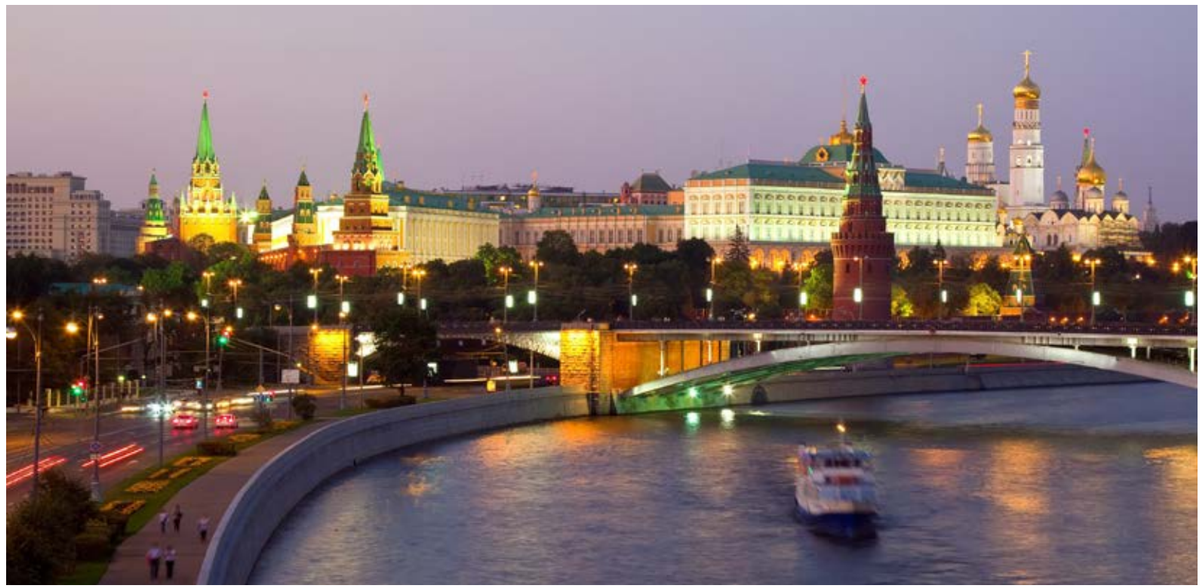
Cargo transportation to Russia

Vansped Logistics is a transport logistics company to carry your cargos to Russia

For our partners, we develop individual logistic schemes that are able to ultimately optimize the delivery process, and our flexible pricing pattern and an individual approach to each order allow us to minimize the time and money spent by the customers.

Our company's business sector includes the organization of carry transportation with the provision of our own fleet of 300 vehicles in the following directions:

- Europe – CIS
- Russia
- Baltic States
- Scandinavia



Take advantage of our unlimited possibilities using integrated conceptual solutions for:

- Assorted cargo transportation – Weekly deliveries to Moscow and St. Petersburg from our warehouses in Lübeck and Kassel. Fixed terms: 6 to 8 days
- Project and oversize cargo transportation – We have relevant experience and the appropriate fleet of vehicles for project cargo
- DDP-transportation (Delivery Duty Paid) Procurement on a turn-key basis – We provide a turnkey solution for scaling suppliers. – Our specialists will purchase any product in Europe for you
- Containerized cargo transportation – We will deliver the goods from anywhere in the world. Multichassis with Genset are available.
- Ro-Ro units, trucks and cars transportation – Deliver from D-23 Lübeck to St. Petersburg by RO/RO ferry.

DDP - Service

Procurement and cooperation with suppliers – EU manufacturers offered by Vansped Logistics

We offer the organization of procurement in Europe and outsourcing of foreign trade activities of both import and export. As part of these services, Vansped Logistics helps clients to solve the following issues:

- Search for suppliers-manufacturers in Europe, the conclusion of profitable contracts, delivery of goods by any mode of transport including delivery of goods in a turnkey format.
- Representation of interests of your company in the European market providing a wide range of logistics services, storage of cargo in our warehouse in Germany, distribution and delivery of cargo Just in Time.
- Organizing goods delivery for foreign partners, who do not have their trade missions in Russia, to their clients on DDP terms.

Advantages of working with Vansped Logistics

If you trust us, you will get a comprehensive approach to a profitable efficient supply chain management scheme. If you order our outsourcing of Foreign Economic Activities, you receive the full range of services from single source, including:

- Purchase of goods – we find a supplier, place an order, pay and pick up the goods
- Delivery of goods – we will deliver your cargo on time by any mode of transport, in any volume
- Customs clearance – we certify, pay all taxes and fees
- Door-to-door delivery – we deliver goods to any point in the Russian Federation and transfer to the recipient with all the documentation.
- Convenient method of payment – settlements are carried out in euros, dollars and Russian rubbles

Refrigerated transportation

Refrigerated transport offered by Vansped Logistics!

Uninterrupted supply and timely delivery of refrigerated goods are the main prerequisites for the qualitative characteristics of perishable goods logistics.
Vansped GmbH & Co KG has been successfully transporting food for several years. We see the cargo entrusted to us as the client's trust in our reliability and responsibility.
We use this trust as an incentive for our top-level performance standard based on reliability, flexibility and transparency. We guarantee our clients such high standards thanks to our integrated management system rested upon quality standards in accordance with AEO, ISO-9001 and IFS Food.

Our motto has always been: "We do our best for the benefit of the client." Recently, it has been expanded with "We do our best for the good of the environment".
As far as ecology is concerned, we strive for greater change in sustainability values of the environment protection. As part of the Green Logistics concept, we have expanded our fleet of vehicles of more than 110 tractors with Euro 6 emission class to 5 more environmentally friendly LNG-operated tractors. We consider these investments as a true approach to the reinterpretation of sustainable practices and as our contribution to environmentally friendly and resource-efficient logistics processes inspired by green logistics.

What makes Vansped a reliable partner for your tasks?

- Quality - reliable, timely vehicle bringing and cargo delivery
- Reliable staff - we hire only experienced professional drivers
- Low damage - because we have well-paid and motivated drivers who follow the rules of driving and rest
- Shipment tracking and data control, guest access to the tracking system
- Green Logistic –environmentally friendly vehicles maintenance. Euro 6 and LNG. All kinds of trailers for transportation by rail
- Comprehensive quality management in accordance with IFS, ISO-9001, AEO
